Bratislava, 03-2026

Healthcare at SINA CLINIC for STU Students

Healthcare services are available for both domestic and international students.

Domestic students are covered through Slovak public health insurance providers.
Visits to the **General Practice and ENT (Ear, Nose, and Throat) clinics are free of charge** under public health insurance.

International students usually have various types of private health insurance, through which they can later request reimbursement for healthcare expenses.

Our **General Practice and ENT clinics are accepting new patients**, and we also provide care for students who are not registered with our clinic or are outside our official catchment area.

Contracted insurance companies: Dôvera, Union, VšZP

Address:
Dúbravská cesta 14, 841 04 Bratislava
(National Motorway Company building/Národná diaľničná spoločnosť)
