

Rector's Directive

No. 2/2013-SR

Tuition and Fees Associated with Studies at the Slovak University of Technology in Bratislava for the Academic Year 2014-2015

Date: 13 September 2013

The Rector of the Slovak University of Technology in Bratislava (hereinafter referred to as the “STU” or “University”) in line with Section 92 (3) of the Act No. 131/2002 Coll. on Universities and on Amendments and Supplements to Certain Acts, as amended (hereinafter referred to as the “Act”), and in line with the Article 23 Clause 14 of the Statute of STU, as amended, herewith

i s s u e s

Directive of Rector, stipulating

Tuition and fees associated with studies at the Slovak University of Technology in Bratislava for the academic year 2014-2015

applicable to study programmes ensured by faculties of STU and the Institute of Management of STU (hereinafter referred to as the “Directive”). The tuition and fees associated with studies shall be, in the case of faculties of STU, determined based on a proposal of the relevant faculty Dean, and in the case of the Institute of Management of STU, based on a proposal of the Director of the Institute of Management of STU.

Article 1

Basic Provisions

(1) The studies in study programmes of the first, second and third level shall be realised at a faculty, if professionally and organisationally ensured by the faculty; in other cases, the study programme shall be realised at the University (Institute of Management of STU). Unless otherwise stipulated in a specific provision of this Directive, the term “faculty” shall also apply to the University (Institute of Management of STU) and the term “Dean” shall apply in connection with the University (Institute of Management of STU) to “Rector”; all terms shall be in relevant relationship to the meaning of the affected provision, unless they contradict with the nature of the given provision.

(2) The basis for determining the tuition and fees associated with studies at the university and its faculties shall be 10% of the average amount connected to one student in full-time studies of the overall usual expenditures provided by the Ministry of Education, Science, Research and Sports of the Slovak Republic (hereinafter referred to as the “Ministry”) to public universities from the state budget as part of the specification of the approved budget in the previous calendar year. The basis shall be rounded down to whole five euro.

(3) The basis, pursuant to Clause 2 of this Article set by the Ministry, for the academic year 2014-2015 shall represent the amount of **EUR 330.00**.

(4) The annual tuition shall apply to the academic year.

(5) The annual tuition in study programmes in the **full-time form of studies** must not exceed five times the basis, pursuant to Clause 2 of this Article. Limitation of the tuition amount shall not apply to tuition in the full-time form of studies in other than state language, pursuant to Article 2 Clauses 8 and 9 hereof.

(6) Annual tuition in study programmes in the **external form of studies** must not exceed the result of multiplication of the amount of the maximum annual tuition determined by the Ministry for the relevant academic year by a measure (Article 3 Clause 1 hereof) and the quotient expressed as a

result of division of the number of credits, the achievement of which serves as a pre-requisite for proper completion of studies in the relevant study programme, and the result of multiplication of standard length of studies of the relevant study programme and the number 60 (Section 92 (3) of the Act). The maximum annual tuition in study programmes in the full-time form of studies shall be derived from the subsidy for the realisation of accredited study programmes.

(7) For the purposes of this Directive:

- a) The first three years of study in the study programmes pursuant to Section 53 (3) of the Act (combined first and second level of studies) shall be considered as study programmes of the first level, and fourth and further years of studies in the study programme, pursuant to Section 53 (3) of the Act, as studies in the study programme of second level, so that the fourth year of studies in the study programme, pursuant to Section 53 (3) of the Act, shall be considered as the first year of studies in the study programme of the second level and further years, respectively;
- b) The Bachelors type of studies, according to previous regulations pursuant to Section 113a Par. 8 of the Act, shall be considered as studies of the study programme on the first level, the Masters type of studies, Engineering type of studies and Doctoral type of studies, according to previous regulations pursuant to Section 113a Par. 8 of the Act, as studies of the study programme according to Section 53 (3) of the Act. If a student continued in the Engineering type of studies or in the Masters type of studies, after previous graduation from Bachelors studies, according to previous regulations pursuant to Section 113a Par. 8 of the Act, the follow-up studies shall be considered as studies of the study programme on the second level. The length of studies, determined according to previous regulations, pursuant to Section 113a Par. 8 of the Act, shall be considered as the standard length of studies according to the valid wording of the act;
- c) A student who was issued a Certificate of Slovak Living Abroad, pursuant to a special regulation,¹ shall be considered as a citizen of the Slovak Republic.

(8) A Member State shall be perceived as an EU Member State or a state that is a state party to the Convention on the European Economic Area and the Swiss Confederation.

(9) In case of students studying as part of interstate agreements, tuition and fees associated with studies shall be governed by the provisions of these interstate agreements.

Article 2

Tuition in the Full-time Form of Studies

(1) The annual tuition in the full-time form of studies for the academic year 2014-2015, pursuant to Article 1 Clause 5 hereof, must not exceed the amount of **EUR 1,650.00**.

(2) A student in the full-time form of studies shall be obliged to pay annual tuition to the faculty, if such obligation applies to him or her, pursuant to Clause 3, 5, 8 or 9 of this Article.

(3) A student who studies parallelly, during one academic year, in two or more study programmes provided by a public university or state university with a seat in the territory of the Slovak Republic (hereinafter referred to as the "university") on the same level, shall be obliged to pay annual tuition in the second and further study programme for studies in the academic year 2014-

¹ Section 7 (1) of the Act No. 474/2005 Coll. on Slovaks living abroad and on Amendments and Supplements to Certain Acts

2015 (Section 92 (5) of the Act). A student, who re-registered for studies in another study programme on the relevant level, after an interruption of studies, shall be obliged to pay to the university a proportion of the annual tuition, depending on the number of calendar months remaining until the end of the academic year 2014-2015, following his or her re-registration.

(4) A student, pursuant to Clause 3 of this Article, shall have the right to decide in which study programme he or she will study in the academic year 2014-2015 free of charge, if he or she is entitled to free university studies. The student shall be obliged to notify about this decision the study department of the faculty at which he or she is registered, namely no later than **by 30 September 2014** [Section 71 (3) (e) of the Act].

(5) A student who studies in a study programme, provided by the faculty longer than its standard length of studies, shall be obliged to pay to the faculty annual tuition for each further year of studies (Section 92 (6) of the Act). The total length of studies reflects the period for which the student was registered at a university in one of the study programmes of relevant level of university education; if the student is registered, during one academic year, parallelly for studies in several study programmes, only one year shall be calculated in the overall length of study. The period during which the student was registered for studies in a study programme, in the relevant academic year, shall be rounded up for the purposes of this clause to the whole academic year.

(6) The overall period of studies, pursuant to Clause 5 of this Article, shall not reflect the period during which the student was registered for studies at a university in a study programme in which he or she paid tuition.

(7) If a citizen studied on the same level of university studies, parallelly in several study programmes in one academic year or in its part, studies in each study programme prior to 1 September 2008 shall be reflected individually in the overall length of studies for the purposes of Clause 5 of this Article, if he or she studies in some of the study programmes only for a part of the academic year, this period shall be rounded up to the whole academic year for the purposes of Clause 5 of this Article.

(8) A student, who is a citizen of a Member State or who has permanent residency in a Member State and studies in a study programme in the full-time form of studies, shall be obliged to pay annual tuition in each academic year, if the study programme (as a whole) is realised exclusively in other than the state language (hereinafter referred to as the “foreign language”). The obligation to pay tuition originates if a university, in the academic year 2014-2015, when he or she started to study in this study programme, accepted him or her for studies in the same study specialisation and level in a study programme realised also in the state language (Section 92 (8) of the Act).

(9) A student, who is neither a citizen of a Member State nor has permanent residency in a Member State and studies in a study programme in the full-time form of studies, shall be obliged to pay annual tuition in each academic year, if the study programme (as a whole) is realised exclusively in a foreign language (Section 92 (8) of the Act).

(10) The annual tuition for the academic year 2014-2015, in the full-time form of studies in study programmes realised at individual faculties and at the University (Institute of Management of STU), shall be stated in Annex No. 1 hereof.

Article 3

Tuition in the External Form of Studies

(1) For the academic year 2014-2015, the Ministry set the amount of maximum annual tuition for study programmes in the external form of studies by its Decree No. 2013-6555/36831:15-071 dated 13 August 2013.

(2) A student, in the external form of studies, shall be obliged to pay the annual tuition in each year of studies.

(3) A student, in the external form of studies, shall pay each year **during the standard length** of studies in the study programme, the amount of tuition determined by the directive for the academic year in which his or her studies started (Section 92 (16) of the Act). The faculty can reduce the published tuition in the course of studies.

(4) A student in the external form of studies, **after exceeding the standard length of studies**, shall be obliged to pay tuition in the amount determined for the given study programme for the relevant academic year (Section 92 (16) of the Act).

(5) The annual tuition in the external form of studies in study programmes realised at individual faculties and at the University (Institute of Management of STU) shall be stated in Annex No. 1 hereof.

Article 4

Form of Payment and Due Date of Tuition

(1) The Act No. 71/1967 Coll. on Administrative Proceedings (Administrative Procedure Code), as amended, shall not apply to the proceedings and decision concerning the obligation to pay tuition.

(2) A student shall be obliged, pursuant to the valid Study Regulations of STU, to correctly state facts decisive for the determination of tuition, in form of a declaration of an oath that is to be handed in at the time of the first registration for studies and at each subsequent registration for further parts of the study programme, namely to the relevant study department.

(3) After the registration, the faculty shall be obliged to issue to the student a written decision concerning the obligation to pay tuition. The decision about the obligation to pay tuition must contain a statement indicating the amount of tuition and the due date of the tuition, justification of the obligation to pay the tuition and instruction concerning the possibility to submit an application for a reduction, remission or postponement of the due date (hereinafter referred to as the "Application"). The decision about the obligation to pay tuition must be delivered to the student's own hands.

(4) The student shall be obliged to pay tuition no later than within 10 business days from the day of the delivery of the decision concerning the obligation to pay tuition.

(5) In justified cases, the student can submit a written Application, pursuant to Clause 3 of this Article, to the Rector. The student shall fill in the Application through the Academic Information System (hereinafter referred to as the "AIS"), print and personally sign and deliver it to the relevant student department or send it via regular post to the address of the relevant student department, namely no later than within a period of 10 business days, from the day of delivery of the decision concerning the obligation to pay tuition. In case of Applications sent via regular mail, the date of their submission, marked by the postal office on the envelope, shall be decisive. This means this date must not be later than the tenth business day after the delivery of the decision to pay tuition. The

student department shall forward mass Applications of students to the Rector, together with opinions of the faculty Dean/Director of the Institute of Management of STU concerning individual Applications.

(6) Pursuant to Section 92 (18) of the Act, the Rector can reduce or remit tuition and fees associated with studies or postpone their due dates depending on the study results, social and health situation of the student or other circumstances being worthy of special consideration, pursuant to principles stated in the Article 23 of the Statute of STU and in cases stated in the Article 5 hereof.

(7) The decision concerning this item, according to Clause 6 of this Article, shall be issued by the Rector within a period of 30 days from the delivery of Applications to the Rector, through relevant student departments of STU.

(8) Applications submitted pursuant to this Clause of this Article, but delivered after the lapse of the deadline for its submission, pursuant to Clause 5 of this Article, shall not be considered.

(9) Actions of a student, who refused to provide information and facts decisive for the determination of the payment of tuition and fees associated with studies or who stated incorrect or incomplete information or failed to pay tuition and fees associated with studies in a proper and timely manner, shall be considered as a disciplinary offence in line with the valid Disciplinary Rules of STU for Students.

Article 5

Reduction, Remission or Postponement of the Tuition's Due Date by Rector

(1) The Rector shall not approve a postponement of the tuition's due date.

(2) The Rector shall not approve a reduction or remission of tuition in case of an obligation to pay tuition due to parallel studies (Article 2 Clause 3 hereof), studies in the full-time form in a foreign language (Article 2 Clauses 8 and 9 hereof) and external studies (Article 3 hereof).

(3) The Rector can **reduce** tuition in the following cases and in the following scope:

a) Social and health situation of the student:

1. If the student is a half-orphan, under the condition that he or she continues to be entitled to the payment of orphans benefits; in such a case, **tuition can be reduced by 50%.**
2. If the student, in the academic year preceding the academic year in which the obligation to pay tuition originated, suffered an unexpected life event preventing him or her to pay tuition in the full amount (e.g., natural disaster); in such a case, **tuition can be reduced by 50%.**
3. If the student was, in the academic year preceding the academic year in which the obligation to pay tuition originated, on maternity leave; in such a case, **tuition can be reduced by 50%.**
4. If the student suffered serious deterioration in health condition (work disability longer than 1 month) in the academic year preceding the academic year in which the obligation to pay tuition originated; in such a case, **tuition can be reduced by 50%.**

b) Other circumstances:

1. If the student passes only the state exam in the academic year; in such a case **tuition can be reduced by 25%.**
2. If the student passes only the state exam and 2 additional subjects in the academic year; in such a case **tuition can be reduced to 75%.**

3. If the student achieved weighted study average (hereinafter referred to as the “WSA”) up to 1.5, and at the same time was an important sportsman or sportswoman (representing the Slovak Republic at world or European championships, Olympic games, world Universiade) in the academic year preceding the academic year in which the obligation to pay tuition originated; in such a case, **tuition can be reduced by 50%.**
4. If the student re-registers for studies, after their interruption, and if the obligation to pay tuition originates, **tuition can be reduced to the proportion of the annual tuition, depending on the number of calendar month remaining until the end of the relevant academic year, after his or her re-registration.**

(4) Reasons for reducing tuition, stated in Clause 3 hereof, cannot be mutually cumulated. The Rector shall always consider only the most serious reason stated in the Application of a student.

- (5) The Rector can **remit** tuition in the following cases:
- a) Social and health situation of the student:
 1. If the student is an orphan, provided he or she continues to be entitled to the payment of orphans benefits;
 2. In case of a student with specific needs, pursuant to Section 100 (2) of the Act, who exceeded the standard length of studies, due to his or her disability.
 - b) Other circumstances:
 1. If the student exceeded the standard length of studies, due to attending an approved international study trip (approved academic mobility) during which he or she earned at least 20 credits per semester;
 2. If the student exceeded the standard length of studies, due to changes in the study programme as a result of terminated accreditation of the original study programme at the STU;
 3. If the student achieved WSA of up to 1.2, and at the same time was an important sportsman or sportswoman (representing the Slovak Republic at world or European championships, the Olympic games, world Universiade) in the academic year preceding the academic year in which the obligation to pay tuition originated;
 4. If the student of the study programme of the third level has fulfilled all conditions for graduating from the studies, except from the defence of the dissertation paper which he or she has turned in during the standard length of studies of the study programme;
 5. If the student of the study programme of the third level is an employee of the faculty/Institute of Management of STU (or an employee of an external training institute); is employed for a set weekly working time;
 6. If the student of the study programme of the third level, whose obligation to pay tuition originated for exceeding the standard length of studies, is also paid a scholarship, pursuant to Section 54 (18) of the Act, at the same time; in such a case, the tuition of this student can be remitted in proportion of the annual tuition, depending on the period of receiving of the scholarship, pursuant to Section 54 (18) of the Act;
 7. If a student, whose obligation to pay tuition originated, abandons studies within one month from the start of the academic year.

(6) A student can state in the Application only one reason (i.e., Application for Reduction, Remission of Tuition or Application for Postponement of the Tuition’s Due Date). The Rector shall decide only on the reason stated in the Application. This shall not affect the provision of Clause 4 of this Article.

(7) The Application for Reduction or Remission of Tuition needs to be accompanied by documents credibly proving the student's reason for its submission, namely:

- a) Confirmation of mobility approval;
- b) Confirmation of representation at world or European championships or Olympic games or the world Universiade;
- c) A document proving that the student has specific needs pursuant to Section 100 (3) of the Act, together with the opinion of the relevant coordinator for students with specific needs;
- d) Medical confirmation from a specialised doctor proving serious and long-term medical issues;
- e) A copy of the birth registration certificate of a child in case of maternity leave;
- f) A document confirming the lasting title to the payment of orphans' benefits;
- g) A relevant document that the situation, stated in Clause 3 (a) Sub-clause 2 of this Article, occurred;
- h) Or any other relevant documents associated with the reason stated in the Application;

Article 6

Fees for Material Arrangement of the Admission Procedure

(1) The faculty shall ask the applicants for studies to pay a fee for material arrangement of the admission procedure, which is another condition of being accepted for studies, pursuant to Section 57 (1) of the Act.

(2) The fee has been derived from the actual costs of STU associated with actions connected to the admission procedure. Its amount must not exceed 25% of the basis, pursuant to Article 1 (Clause 2) hereof. For the academic year 2014-2015, the fee for material arrangement of the admission procedure must not exceed **EUR 82.50**.

(3) The fee for material arrangement of the admission procedure shall be paid in advance, and its payment shall be proven by attaching the document, confirming the payment, to the application for studies.

(4) The applicants for studies, applying as part of scholarship places of the Government of the Slovak Republic, are asked by the faculty to pay a fee for material arrangement of the admission procedure equal to the amount determined for studies, realised in the state language,.

(5) The amount of fees for material arrangement of the admission procedure at individual faculties and at the University (Institute of Management of STU) for students admitted to studies in the academic year 2014-2015 is stated in Annex No. 2 hereof.

Article 7

Fees Connected to Studies

(1) The University or the faculty can request, pursuant to Section 92 (15) of the Act, fees for issuing documents about studies and their copies, for issuing copies of documents about graduation from studies and for acknowledging the equivalence of documents about studies [Section 106 (2) Letter a)]. The amount of the fee shall be derived from the actual costs of the University or faculty connected with these activities.

(2) Fees for issuing documents about studies

- a) STU Student Card

1.	A new STU Student Card for a student in the first year of studies in the external form	€ 13
2.	A new STU Student Card for holders of a valid ISIC card from other universities	€ 13
3.	Prolongation of the STU Student Card	€ 4
b)	ISIC Card of STU student	
1.	A new ISIC Card of STU student in the first year of studies in the full-time form	€ 20
2.	A new ISIC Card of STU student in further years of studies (transition from STU to ISIC)	€ 20
3.	Prolongation of the ISIC Card for another academic year (with the ISIC license)	€ 10
4.	Prolongation of the ISIC Card for another academic year (without the ISIC license)	€ 4
c)	Statement of Studies (Index) for all STU students (if issued by the faculty)	€ 4 per piece
d)	Extract of the results of studies	
1.	Issued to student during studies based on an application in the Slovak or English language	€ 4 per extract
2.	Issued to student during studies for the purposes of academic mobility pursuant to Section 58a of the Act	Free of charge
3.	Issued to student after the end of studies based on an application in the Slovak or English language	€ 4 per extract
4.	Issued to the person who graduated from studies, pursuant to Section 66 (1) of the Act, at the time of graduation	Free of charge
5.	Issued to the person who graduated from studies, pursuant to Section 66 (1) of the Act, after the end of studies based on an application in the Slovak or English language	€ 4 per extract
(3)	Fees for issuing documents about graduation	
a)	University diploma bilingual (Slovak-English)	Free of charge
b)	Certificate of State Exam bilingual (Slovak-English)	Free of charge
c)	Annex to the University diploma bilingual (Slovak-English)	Free of charge
d)	Decision about acknowledging or rejecting to acknowledge an education document issued by a foreign university pursuant to Section 106 (2) Letter a) of the Act	€ 40
(4)	Fees for issuing duplicates	
a)	STU Student Card	€ 12
b)	ISIC Card of STU student during license validity	€ 12
c)	ISIC Card of STU students with a new license	€ 20
d)	Statement of Studies (Index)	€ 4 per two-sided page
e)	University diploma, extract from the book of diplomas in the Slovak or in the English language, or bilingual	€ 20
f)	Certificate of State Examination, extract from the Certificate of State Examination in the Slovak or in the English language, or bilingual	€ 20

- g) Annex to the diploma in the Slovak or in the English language, or bilingual € 20
- h) Decision about acknowledging or rejecting to acknowledge an education document issued by a foreign university € 20

(5) Costs related with sending of certificates and other documents stated in this Article via the postal service shall be charged according to the current pricelist for postal services.

Article 8

Transitory Provisions

(1) A student in the full-time form of studies of doctoral study programmes, who was admitted to studies before 1 September 2007, shall not be obliged to pay tuition even if he or she exceeds the standard length of studies (Section 113a (12) of the Act).

(2) A student admitted to a free-of-charge study programme in the external form of studies, pursuant to regulations effective until 30 April 2011, shall complete these studies free of charge; this shall not apply if his or her obligation to pay tuition originates during studies, due to parallel studies or due to exceeding the standard length of studies (Section 113aca of the Act).

(3) A student, whose studies started before the academic year 2014-2015 and who is registered for studies in a study programme realised exclusively in a foreign language, shall be considered for the purposes of Article 2 Clauses 8 and 9 hereof, as registered for studies in a study programme realised also in the state language (Section 113af Par. (6) of the Act).

Article 9

Final Provisions

(1) This Directive shall be issued pursuant to the Article 23 Clause 14 of the Statute of STU as an internal organisational and managing standard of the STU issued by the Rector.

(2) Any amendments and supplements hereto can be made only based on numbered amendments hereto, issued by the Rector; in case of tuition fees for study programmes provided by the faculty at the proposal of the relevant Dean and in case of tuition fees for study programmes provided by the University (Institute of Management of STU) at the proposal of the Director of the Institute of Management of STU.

(3) The following annexes shall be an inseparable part hereof:

- a) **Annex No. 1**, stipulating for the individual faculties and for the Institute of Management of STU:
 1. Annual tuition for study programmes in the full-time form of studies, realised in the state language, for exceeding of the standard length of studies and for parallel studies, pursuant to Article 2 Clauses 3 and 5 hereof.
 2. Annual tuition for study programmes in the full-time form of studies, realised in a foreign language, pursuant to Article 2 Clauses 8 and 9 hereof.
 3. Annual tuition for study programmes in the external form of studies valid for all years of studies during the standard length of studies for students admitted to studies in the academic year 2014-2015, pursuant to Article 3 (Clause 3) hereof.
 4. Annual tuition for study programmes in the external form of studies, after exceeding the standard length of studies, pursuant to Article 3 (Clause 4) hereof.

- b) **Annex No. 2**, which for the individual faculties and for the Institute of Management of STU stipulates fees for material arrangement of the admission procedure for students admitted to studies in the academic year 2014-2015.
- (4) The following shall be cancelled:
- a) Methodological guideline stipulating conditions for the remission or reduction of tuition at STU issued by the Rector on 18 June 2012;
 - b) Guideline concerning the remission of tuition issued by the vice-Rector on 6 November 2012;
 - c) Guideline concerning the remission of tuition issued by the vice-Rector on 12 November 2012;
- (5) This Directive shall become valid as of the day of its signing and be effective as of 1 September 2014.

prof. Ing. Robert Redhammer, PhD.²
Rector

² The original of the signed Directive "Tuition and Fees Associated with Studies at the Slovak University of Technology in Bratislava for the Academic Year 2014-2015" 2/2013-SR dated 13 September 2013 shall be placed and made available for viewing at the Department of Education and Care for Students of the Rector's Office of STU
