(1) The studies in study programmes of the first, second and third level shall be realised at a faculty, if professionally and organisationally ensured by the faculty; in other cases, the study programme shall be realised at the University (Institute of Management of STU). (9) A student, who is neither a citizen of a Member State nor has permanent residency in a Member State and studies in a study programme in the full-time form of studies, shall be obliged to pay annual tuition in each academic year, if the study programme (as a whole) is realised exclusively in a foreign language¹².
