

## STU PLACE IN EULiST

STU

EULiST recognizes the need to train individuals who understand the technical problems of the future and the societal framework and dimensions for which technological solutions are designed.

EULiST supports the integration and cross-pollination of science, technology, mathematics and social sciences.

The Slovak Technical University in Bratislava wants to face these challenges together with strong partner universities and to cooperate with them in the field of studies, research and administration in order to realize the vision of a European Universities initiative.

## ROLE OF EULiST

- to build a **long-term strategic partnership** to promote networking and exchange between society and technological development
- to develop new **sustainable solutions** to major social challenges that we face today and in the future
- to offer complementary **educational opportunities** and mobility for students, researchers, and staff.

# WHAT ARE EUROPEAN UNIVERSITIES

**European Universities** are ambitious transnational alliances of higher education institutions.

With its European Universities initiative, the European Commission aims at fostering excellence, innovation and inclusion in higher education across Europe, accelerating the transformation of higher education institutions into the universities of the future with structural, systemic and sustainable impact.

# AIM OF EUROPEAN UNIVERSITIES

- achieve a **new quality** of European exchange
- become **models** for networking, digitization, sustainability & social participation
- educate a **new generation of European graduates** who study and live in different countries and languages

## EULiST

**EULiST Alliance** is a consortium consisting of **ten universities** with complementing strengths in technical subjects, humanities and social sciences.

Through joint and integrated approaches in social sciences, natural sciences and engineering, it aims to develop new sustainable solutions to major social challenges that we face today and in the future.
