

At this moment we have free position in our architectural studio for few students, starting as soon as possible from OCTOBER to DECEMBER 2016 (at least 3 months, we are open for longer period of internship). We want to offer them our office as a possible place, where they could work and practice their skills within the frame of ERASMUS or LEONARDO DA VINCI scholarships. We would really appreciate your help and efforts to find new members of our team for purposed period of time.

Miquel Àngel Lacomba Architects is an architectural studio which has been created since the year 1997, with the collaborative design process as an essential focus point. The studio is located in the capital of charming island in the Mediterranean Sea in Palma de Mallorca.

From the year 2003, we had the opportunity to welcome students of architecture from many countries, belonging to the program of interchanges. Your students can gain new experiences from company environment. They will collaboration on real projects. They will expand their knowledge in AutoCAD, Adobe Photoshop, MS Office, ArchiCad and Artlantis. They will assist in processing and publishing our projects, etc. In the studio they can participate in a team full of young people with friendly atmosphere, where we speak English perfectly, but knowledge of Spanish language is an advantage.

If you and your students would be interested in our proposal or if you have any further question please do not hesitate to contact us directly via email administracio@mlacomba.com.
