The testing places with the note “objednávkový systém”, means that you have to book in advance. It is always good to check the place itself in case of any changes.

We also advise you to follow social media of [Bratislava](#) about the current testing places.

“A **negative test result will be required after January 27** from people travelling to work or planning a trip to nature. At the same time, the cabinet prolonged the curfew until February 7.” all important information regarding the testing can be found in this article:
